

Smart CoC (CPC & GCC) for CPSC

OnRule is bringing automation in creating Certificate of Compliance (CoC).

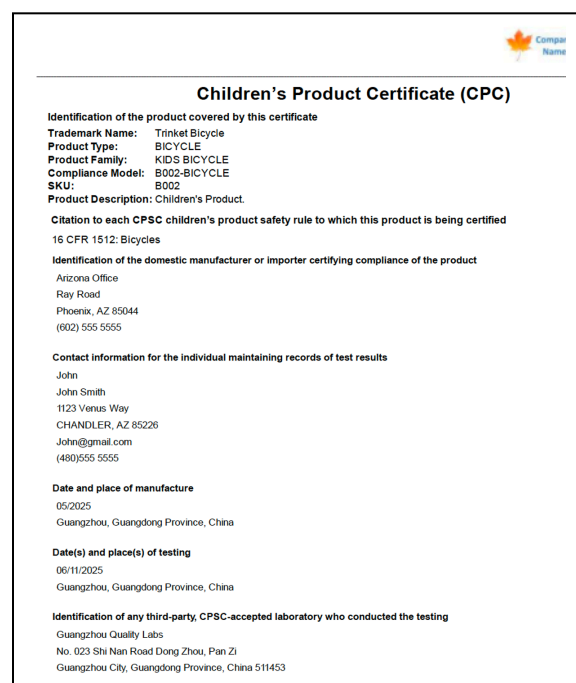

Background: To comply with the requirements of the Consumer Product Safety Commission (CPSC), importers and manufacturers of the regulated consumer products are required to issue General Certificate of Conformity (GCC) or Children's Products Certificate (CPC). The CoC states the product meets all the requirements of the applicable citation and/or technical standard. Importers and manufacturers are launching and selling multiple new products in the US every year. Additionally, they are making changes to the existing products, requiring revision of the CoCs.

Problem Statement: The compliance teams have to manually create the CoCs, outline the products affected, select the applicable citations and underlying standards that were used to demonstrate compliance, seek an approval from the management, print the CoCs, archive an electronic copy and finally make soft copies available for the broker to get the shipment released at the Customs and Border Protection (CBP)!

The manual process of creating, reviewing, approving and sharing a CoC is repetitive in nature and requires collaboration among multiple stakeholders. Additionally, identifying changes in citations and underlying standards, identifying the impacted products and CoCs, and updating the CoCs consume important amounts of valuable resources.

Our Solution: *The entire process of creating, reviewing, approving, sharing, and searching for a CoC is digital, collaborative and secure:*

- Configure the CoC generation to fit your internal business processes
- List your manufacturers, test labs and individuals maintaining records of test results
- Create a new digital CoC using a simple wizard
- In response to the changes in existing configurations, instantly version up a new CoC from an existing CoC
- Create Smart CoC from an existing, legacy CoC for products currently in production and being imported
- Make the supporting documents instantly available
- Share the CoC with stakeholders – brokers, shippers, etc. - in support of your business needs

 **Children's Product Certificate (CPC)**

Identification of the product covered by this certificate
 Trademark Name: Trinket Bicycle
 Product Type: BICYCLE
 Product Family: KIDS BICYCLE
 Compliance Model: 8002-BICYCLE
 SKU: 8002
 Product Description: Children's Product.

Citation to each CPSC children's product safety rule to which this product is being certified
 16 CFR 1512: Bicycles

Identification of the domestic manufacturer or importer certifying compliance of the product
